## TEACHER'S GUIDE

## INTRODUCTION

KidZania is an indoor real city built for kids, with more than 100 hands-on activities. Through role play, children independently and safely learn, develop skills and values, and journey from inspiration to aspiration, while having fun in a place full of exciting careers! KidZania uses real-world, experience-based learning and fun to prepare kids for a better world.

## STANDARDS ALIGNMENT

Learning is at the heart of KidZania's values. Our cross-curricular experiences will challenge and inspire students from Pre-K to 8th grade. All activities are aligned to state and national educational standards.

## ONLINE TEACHER RESOURCES

To support schools' learning and curriculum goals, we have designed resources to make the KidZania experience memorable and valuable for your students. Resources include a variety of cross-curricular activities to be completed before or after the visit, and a Learning Guide available online at [www.KidZaniaUSA.com](http://www.KidZaniaUSA.com) under Educators.

### RFID

Students and accompanying adults get RFID bracelets that are linked to one another. Students cannot exit KidZania without the adult they are matched with.

## EDUCATION GROUP RATES\*
