Imagine a child-sized city

where your students can choose out of more than 60 professions, from firefighters to doctors, chefs, artists...

They perform **real-life** tasks and learn without noticing, while **having fun!**

MEET KIDZANIA!

OUR LEARNING EXPERIENCE

KidZania builds a bridge between schools and the outside world. We provide an Experience-based learning environment that allows children to become active participants in their learning process by putting theory into practice.

Integral development

- Expand knowledge
- Develop skills
- Promote values

Through curriculum-based role-play activities, students will instantly grasp that learning is tangible and its outcomes have a purpose and a reality.

Our activities are designed to empower children, giving them the confidence to be their best selves while learning:

- How a city works
- Financial literacy
- The world of work
- Model citizenship
- Good habits

OUR KEY COMPONENT:

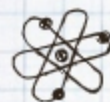

Role-play

An essential ingredient in KidZania's experience
